JEROME HOT AFTER OSBORNE

GRAND JURY SUBPŒNAS NOW IN "PEOPLE VS. DE WITT"

Since the John Doe Subpenas Were Resisted-Warm Encounter in Court Over Ice Inquiry Leak-Judge Says the New Subpornas Look Good to Him.

District Attorney Jerome and his former assistant, James W. Osborne, made a few hostile remarks in General Sessions yesterday before Judge Crain. Mr. Osborne and Franklin Pierce sought to evade the subpænas which called upon them to appear before the Grand Jury and explain how it came about that the minutes of the January, 1908, Grand Jury in relation to the ice investigation got into the hands of the committee that filed charges against Mr. Jerome with the Governor

Test Thursday the District Attorney summoned MacDonald De Witt, a lawyer employed in the office of Clarence Shearn, and a Miss Hubby, who has acted as a stenographer for Mr. Pierce. De Wift refused to testify on the ground that to do so would tend to incriminate The District Attorney then issued John Doe subpœnas for Mr. Osborne and Mr. Pierce. Mr. Osborne was the special deputy Attorney-General appointed to supersede Mr. Jerome in the ice investigation and Mr. Pierce was the attorney for the committee that filed the charges against Mr. Jerome. Both lawyers refused to respond to

George Gordon Battle, who asked to burg. have the matter put over until yesterday in order that he might argue that the aubpoenes were invalid because of certain technical defects. When this argument was heard yesterday morning before Judge Crain the Court reserved decision and asked for briefs. In the meinwhile Mr. Jerome had had new subpænas served on Mr. Osborne and Mr. Pierce calling upon them to appear before the Grand Jury and testify in the \$80,000. case of De Witt, accused of having secured a copy of the Grand Jury minutes by improper means.

After being served with the subpœnas Mr. Osborne and Mr. Pierce with Mr. Battle went to the District Attorney's office and declared that they would not before Judge Crain and dispute the validity of the papers.

Mr. Jerome hurried into court and after Mr. Pierce were summoned to tell what they knew about Mr. De Witt, charged with making a copy of the Grand Jury utes in Mr. Osborne's office in the the subposts of the Grand Jury should be obeyed. In response Mr. Battle sid that if, as he understood, the Dis-Hey Attorney intended to get out a body Mohment for his clinets, he would like have the matter put over one day for Mr. Jerome replied that he didn't be-

leve he would ask for attachments but that he was very certain that he would sek for indictments against Osborne and Pierce, charging them with criminal con-

At this point Judge Crain broke in to remark that so far as the Court could see the only question was whether or not the second subpœnas were valid.

At. Battle replied that this depended upon circumstances and that the usual product was a fact out body attach. upon circumstances and that the usual stococdure was to get out body attachments and allow the matter to be argued before the higher courts on labeas corpus proceedings. Mr. Battle characterized the District Attorney's action as "extraordinary," and Mr. Jerome retorted that it wasn't half so extraordinary as the section of this court," attempting to evade a supposea. He went on to say:

"The subposeas are proper, the persons are in court and the Grand Jury is waiting to hear them. There is no objection that is not trivial and frivolous. It is alleged that these gentlemen want to get

with folded arms watching the fight.
Judge Crain took advantage of a bit

Mr. Jerome replied in a sarcastic speech in which he declared that after hearing how Mr. Osborne had kicked his office boy across the room for allowing De Witt and Miss Hubby access to the minutes he no longer believed that Mr. Osborne had had any part in the leaking of the mimutes. With this Mr. Jerome left the court room, Mr. Osborne shouting after him that if any one wanted his reasons for refusing to go before the Grand Jury and Miss Hubby access to the minutes. With this Mr. Jerome left the refusing to go before the Grand Jury for refusing to go before the Grand Jury and Mr. Jerome left the refusing to go before the Grand Jury for refusing to go before the Grand Jury and Mr. Jerome left the months and the papers and since then the suit had remained dormant. For these with the that after hearing him declared that deremined dormant. For these with the case she learned that the suit had remained dormant. For these with the case she learned that the suit had remained dormant. For these with the case she learned that the suit had remained dormant. For these with the suit had rem court room, Mr. Osborne shouting after him that if any one wanted his reasons for refusing to go before the Grand Jury it was because he didn't trust Mr. Jerome and believed him to be unfair. He con-tinued to talk until the gavel descended with unusual force and Judge Crain re-warked middly that d mildly that the proceedings were unseemly.

BAD BLAZE IN HAVANA. Central R. R. Pier and Warehouses Burned-Steamer Altenburg Ablaze.

Special Cable Despatch to THE SUN. HAVANA, March 29.-The Central Pier and warehouses were destroyed by fire to-day. The loss will amount to \$1,500,000. The fire was discovered under the southwest corner of the pier in the morning. A strong south wind swept the flames across the pier and warehouses the subprenas and sent in their stead and set fire to the Hamburg liner Alten-

> Several barges laden with sugar were also burned. Two of them belonged to Galben & Co. They contained 4.000 sacks. This was a total loss, as no insurance was carried.

The pier and warehouses were insured in London companies for \$400,000, and the merchandise, on which the loss was \$500,000, was fully insured. The damage to the steamer Altenburg amounts to

For a while the whole western water front was threatened and shipping in the harbor was jeopardized by the flaming lighters and barges which were adrift in a high wind with no fireboats to look after them. It was useless for the volunteer firemen in the dense smoke to attempt appear before the Grand Jury but would to do any good firefighting from land. The wharf was the terminal of the

Havana Central Railway, which brings in a million crates of pineapples annually. alling Judge Crain that Mr. Osborne and These were beginning to move and some were being loaded directly on board boats. The loss of the pier is a most serious blow to shippers.

President Gomez visited the fire twice and through his secretary directed the rork of the firemen.

Shortly before leaving Gov. Magoon appointed one paid fire crew as a nucleus for a regulr department. The volunteer department thereupon went on strike to a man, and although they have since returned the feeling among them is very bad and their work to-day was half hearted. The fire, which was the most destructive remembered here, emphasizes the need of a real fire department. The fire was under control by 3 o'clock

in the afternoon, when the wind had died down. The steamer Altenburg caught fire so quickly that her crew were forced to jump overboard. They were picked

Dr. Canfield was known as a brilliant
orator and a man of great personal magnetism. In the last few years he had
been engaged in special missions for the
Columbia authorities, apart from his
general supervision of the university
library. He made a particularly interesting report last year after a visit te Playgrounds Association is emphatically opposed to it and has asked Mr. Martin

to withhold his report, due at the next meeting of the Sinking Fund Commission on April 5, until the association can have opportunity to present its objections to the plan.

About a year ago, it seems, Mr. Ahearn wrote to the Sinking Fund Commissioners that it had been decided to provide one playground for Manhattan, one for The Bronx and one for Richmond; that those for The Bronx and Richmond had been determined upon, but that the matter of providing one for Manhattan had been "deferred until a suitable site could be site," which the Bureau of Municipal Research underscores, has now been found, as above described. The bureau says that Mr. Ahearn asks that the city lease it at \$9,600 a year for five years with the power to renew for the same period.

Europe, on schools and scholastic conditions abroad.

Among his books are "Tayation," "A History of Kansas," "Local Government in Kansas" and "The College Student and His Problems." He was a frequent contributor to periodicals. He was a frequent of the New York State Library Association, the Twenty-first District Independent Club, the Society of Colonial Wars, the New York-Kansas Society, the Vermont Historical Society, the Columbus (Ohio). Engineering Club, the Italian Immigrant Society, the Seabury Society, the Episcopal Church Congress and the Century, Authors and Quill clubs.

Dr. Canfield was married in 18/3 to Miss Flavia A. Camp of Clear Lake, Ia. They had two children, James Albert Camp Canfield and Dorothea Frances Camp, the writer, who married John R. Fisher, captain of the last Columbia football eleven.

In addition, says the busses of the Next Power Provided A. Amon schools are "Tayation," A History of Kansas," "Local Government in Kansas," "Local Government in Kansas," "Local Government in Kansas," and "The College Student and His Problems." He was a frequent contributor to periodicals. He was a frequent contributor power to renew for the same period.

In addition, says the bureau, the city is asked to fill in a hollow and grade it, which will cost \$15,000, the owner's estimate, will cost \$15,000, the owner's estimate, or \$20,000, the Borough President's estimate. To make it easy the owner offers to advance the money at 6 per cent. If the city will refund the money in five equal installments and releve him of assessments for improvements.

The research bureau passes over the statement that the property is within two blocks of Broadway and says that the nearest subway station is in Amsterdam avenue and is five blocks from the property. Says the bureau: "Approperty. Says the bureau: "Appraiser Brown (of the Comptroller's praiser frown for the Compreher's office; quotes the preposterous statement that 'it is possible to get to this property from the Battery in twenty-five minutes."

The owner's valuation of the property under the present proposal is \$160,000, on which the proposed rental represents 6 per cent. In testing the appraisal Mr. Brown secured three outside ap-

8 per cent. In testing the appraisal Mr. Brown secured three outside appraisals, one of them being \$60,000, one \$125,000 and one \$152,500. Brown's valuation is \$125,000. Another appraisal obtained by the bureau makes the figure obtained by the bureau makes the figure \$76,000, on which an annual rental at 6 per cent. would be \$4,500. The bureau quotes still another investigator as saying of the site: "For the purposes named, it is an absurdity. While geographically within Manhattan, it might almost as well be on the moon."

for consideration and it went to the Comp-troller's real estate bureau, as it should go; that's what the Comptroller's bureau is

subponas were inherently incorrect.
Mr. Osborne started off on a statement of taking part in a conspiracy and ended by saying that if he were allowed until to-day to answer the subponas he would endedy to answer the subponas he would endedy to answer the subponas where allowed until to-day to answer the subponas he would be an argument an affidavity setting forth all that he had had to do with the leaking of the Grand Jury by the subponed of the Central Office, was appointed on August 11, 1875 and on October 31, 1905, he was originally on the metropolitan police force. his 95th year.

Dr. Crowell was born in Philadelphia, the son of James Crowell and Mary Gardner. He studied at the University of Pennsylvania and at Princeton College, having graduated from the latter in 1834. Three years later he received his master's degree from Princeton and in the same year was graduated from the Princeton Theological Seminary. He was a tutor in Princeton College in 1833 and taught for some time in the Morris Academy at Morristown, N. J.

He was ordained in the Presputation

He was ordained in the Presbyterian He was ordained in the Presbyterian ministry in 1840, and was pastor of the First Presbyterian Church of West Chester Pa., from then until 1850. During the next thirteen years he was pastor of the Brick Presbyterian Church in East Orange. He held a pastorate at Odessa, Del., from 1867 to 1878 and was an acfing pastor of a church at Stirling, N. J., from 1884 to 1888. In 1887 Dr. Crowell was elected a trustee of the Ashland public school of East Orange, and he was secretary of the Board of Education of East Orange from 1889 until 1906, when he resigned and at the same time retired from active work.

Dr. Crowell was author of "Republics—Popular Government an Appointment

Dr. Crowell was author of "Republics-Popular Government an Appointment of God," 1871; and "Christ in all the Scriptures." He contributed about 400 articles to the International Encyclopædia.

Dr. Crowell was married on October 21, 1840, to Katharine Roney, daughter of Thomas Roney of Philadelphia. He is survived by these children: Miss Catharine Crowell, and Miss Mary Crowell, of East Orange, Foster Crowell of New York; Mrs. Arthur Richmond of East Orange, and Thomas R. Crowell of Lebanon, Pa.

Husband and Wife Killed by Gas. Joseph Weir and his wife Mary, a middle aged couple of German birth, were found dead yesterday in their room at found dead yesterday in their room at 515 West Twenty-fourth street. They had been accidentally asphyxiated by gas which had escaped from one of two jets that were placed so near together that in turning off one the occupants of the room had turned on the other.

Mrs. Weir's body was found near the gas tap. She evidently had tried to reach the jet to turn it off. The couple rented the room recently from Mrs. Mary Kelly.

NOT THE TARIFF, SAYS HILL

DEPRESSED CONDITIONS WERE A LONG TIME COMINGON.

And Recovery Will Be Gradual - Railroads Not Likely to Rush Into New Expenditure, and Government Extravagances Should Be Much Curtailed.

James J. Hill arrived in town yesterday with some philosophic ideas about present conditions in general and the return of prosperity in particular.

The depression isn't due to tariff revision," he said. "These conditions were a long time coming and the recovery will be as gradual. In the meantime, though I think that conditions willenot get worse."

Again, while assenting to the view that the day's advance in stocks was for the purpose probably of squeezing the shorts, Mr. Hill added broadly that "any man who takes such a gloomy view of the country's future as to bank on its continued depression won't make much profit.

He thought that the present activity the railroads were showing in floating bond issues was more for the purpose of retiring short term paper than for making any great evpenditures. "Why should they lay out any great sums now," he asked, "when there are 275,000 freight cars idle?"

cars idle?"

He expressed the belief that the big men of the country will be very conservative in their additional outlays for some time to come, and this led up to a discustime to come, and this led up to a discussion of the expenditures of the Government. Mr. Hill thought that all governmental expenditures, Federal, State and municipal, had for the last few years been on an extravagant scale, and while President Taft was, as he expressed it, "a sane, level headed man," the Administration would nevertheless have much to contend against in its efforts at economy. "Every Congressman will shout for "Every Congressman will shout for economy," said Mr. Hill, "that is, euerywhere but in his own district. You know the best place to have a boil? Well, the

the best place to have a boil: well, the best place a Congressman knows of to have a boil is on the other fellow."

In dealing with the railroad situation in his own territory Mr. Hill dismissed the rumors of impending rate wars between the Northern Pacific and the St. Paul with the remark that Wall Street was "seeing ghosts" again

"seeing ghosts" again.

The Portland gateway affair promised no c mplications, he said, for if the Southern Pacific wasn't satisfied with the rate into Portland he thought that of course it would appeal to the Interstate Commerce Commission.

As to that conference between Louis Hill and E. H. Harriman Mr. Hill opined Hill and E. H. Harriman Mr. Hill opined that "it must be important—so important that my son is hiding the results even from me. No," he said with a laugh, "the only significance in their meeting is that they were both going the same way and hooked cars together."

The Spokane rate decision, said Mr. Hill, left much confusion in its treatment of class rates and differentials, and he implied that an appeal to the courts would probably have a successful outcome for the company. Mr. Hill said that crop prospects are favorable.

HEINRICH WIEGAND DEAD. Was Managing Director of the North

German Lloyd Steamship Co.

Special Cable Despatch to THE SUN. BERLIN, March 29.-Dr. Heinrich Wiegand, director-general of the North German Lloyd Steamship Company, died to-day at Homburg, where he went several months ago to secure relief from a complication of diseases.

Mr. Wiegand was born in Bremen in 1855 and had lived there ever since. He became a director of the North German Lloyd in 1895 and was made managing director about four years ago. He was a member of the Municipal Council of Bremen. He was also a member of the Council of the Colonies. Two years ago the degree of honorary doctor of laws was conferred on him by the Technical High School at Charlottenburg.

AIR POWER THE THING.

Prof. Bell Thinks Sea Power Will Presently Be a Secondary Matter.

OTTAWA, March 29 .- Prof. Alexander Graham Bell, speaking to-day at a public gathering here, said: "It is the thought of the British nation that it must be supreme upon the waters. But consider: A balloon such as that of Zeppelin could float over London and the British fleet could not prevent it. The success of such machines as that means more to Great Britain than to any other power, because when these machines are used for purposes of war sea power becomes secondary to air power. The nation that controls the air will be the foremost nation of the world."

Prof. Bell hinted that assistance from the Dominion Government to help carry on his experiments at Baddeck, Nova Scotia, would be most acceptable. Finance Minister Fielding, replying, used the words, "Our War Department has not yet indulged in the luxury of an airship. If it is found possible for the Government to help on this movement no one will be more pleased than myself." Earl Grey said: "Every one in the

British Empire is watching with interest the experiments in Baddeck Bay. That nation which has the best airships will obtain that supremacy in the air which the British Empire to-day possesses on

SPECIAL NOTICES.

BAD COMPLEXION. Beauty, they say, is only skin deep. Nature made beauty the visible symptom of health. If the digestive tract is clogged, the stomach overloaded, the liver asleepit will show immediately in the com-

ties of the blood it will assist Nature to bring the bloom of roses back to your .50 .35 cheeks and the blush of health to the complexion. It is palatable, prompt and permanent. Bottled in Hungary.

remainder to be established

work at the close of the Easter vacation, which is April 7. Several saddle horses are to be added to the college stables. The students are in ecstasies over the prospect of dashing over the country roads. It is believed at the college that horseback riding will cause many of the students to abandon rowing on the lake, high jumping, vaulting, basketball and other sports in which Vassar excels.
